I M P L A N T O L O G Y

Mrs. Sonia Cattazzo

She graduated as a dental technician in 1986 and immediately started working in a laboratory where she developed her technical education in fixed prosthesis in particular in metal ceramics. After several work experiences, in 2000 she began to work at the Nonsolodenti Laboratory in Trento, where she specialized in metal free ceramic and decided to continue her education in ceramics and aesthetics attending a lot of courses, with the best dental technician in the world:

Willi Geller, Ulrich Werder, Bertrand Thievent, John Won, Giuseppe Zuppari, Shigeo Kataoka, Marco Di Pietro, Naoki Aiba, Gérald Ubassy, Claude Sieber, Joachim Maier, Sascha Hein, JungoHendo, Michel Magne, Yuas Naoto. Her main passion is the aesthetics but since a while she has been dedicating with the same passion to gnathology following the method of Vienna School by Prof. R.Slavicek. She is a consultant and product evaluator for the important companies of the dental industry.

In 2016 she became a member of the Oral Design group, found by Mr. Willi Geller. She is the scientific director of the "Italian Quintessenza Odontotecnica journal".

Mr. Andy Fairbanks

RDT – Master ceramist; Fairbanks Dental Laboratory

Andy's career has been storming for over 17 years and his expertise are now focused on Implantology, CAD-CAM & Ceramic restoration. After graduating from Leeds Dental Institute with Distinction Andy was working for a well know laboratory before moving into a smaller lab where he grew his skill and knowledge. Andy now manages his own Lab where they utilise the latest technology & techniques with an awesome team of techs supporting him. Andy's 'out the box' thinking with his work and the running of lab is proof of his passion for the industry which he wishes to share this with others to improve their skills and help evolve their career.
