Harley Street Dental Clinic

Dr. Marco Csonka

Masterclass on GBR techniques for a predictable and long term clinical success

Harley Street Dental Clinic
139 Harley Street, Marylebone
London W1G6BG
Dr. Marco Csonka

ABSTRACT

Being able to restore the biological functionality and satisfy aesthetic needs impose the clinicians the way of the Guided Bone Regeneration (GBR). In some cases GBR is the only way to plan and perform a correct implant surgery and prosthetic rehabilitation. The aim of this course is to provide the delegates with the information to detect the bone atrophy and the correct surgical techniques to treat such defects, manage possible complications and predictably achieve long term success. The course will provide key clinical indications for the treatment of vertical and horizontal atrophies sharing the most advanced and recommended surgical tools as well as biomaterials.
09:00  Clinical classification of maxillary bone atrophies;
10:30  Break
11:00  Surgical techniques for the treatment of horizontal atrophies;
12:30  Lunch
13:30  Split Crest vs GBR; when, how and why - three-dimensional bone reconstructions with titanium mesh; indications, surgical technique, prevention and management of complications;
15:00  Break
15:30  Immediate or delayed implants in three-dimensional GBR procedures? When and with what type of system.
17:00  Q&A
17:30  Conclusion
19:00  Dinner
