

NOXI

the night aligner

**ALIGNING TEETH,
WITH MORE FREEDOM.**

Informational guide
on night aligners

**The benefit of a
treatment that works
while you sleep.**

THE TREATMENT DESIGNED AROUND YOUR TIMING

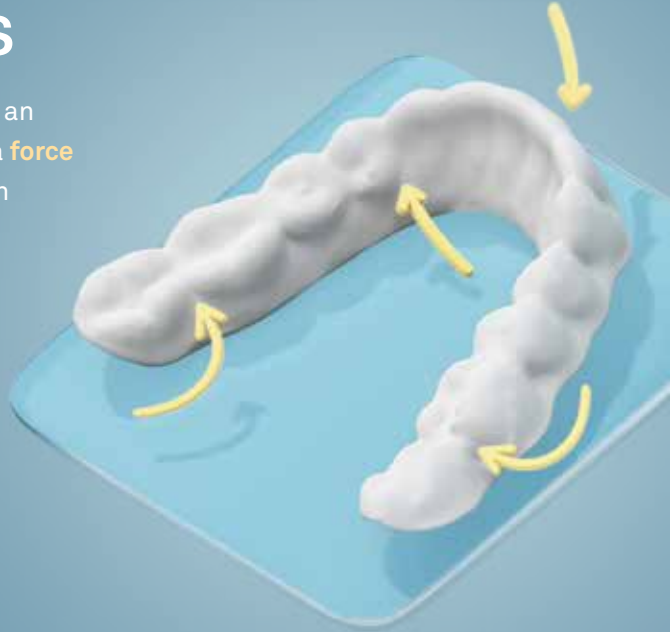

Having straight teeth isn't just a matter of appearance, but also of health: proper alignment makes oral hygiene easier, improves chewing, and helps us feel good about ourselves.

If you have a busy schedule filled with work, sports, and other commitments and prefer not to wear aligners during the day, the night aligner is perfect for you.

HOW IT WORKS

The night aligner is made from an **innovative material** and uses a **force system** designed to move teeth effectively.

The image is for illustrative purposes only; the actual product may differ.

TANGIBLE BENEFITS

EASY-TO-FOLLOW TREATMENT

The device is designed to be worn while you sleep, for at least 10 hours every night.

NO IMPACT ON DAILY LIFE

The treatment easily fits into everyday life, so you can maintain your routine without changes or discomfort.

BETTER ORAL HYGIENE

Thanks to the ease of removal and cleaning, keeping your mouth clean becomes simple, helping to preserve health and freshness.

GETTING STARTED IS EASY

TALK TO YOUR DENTIST

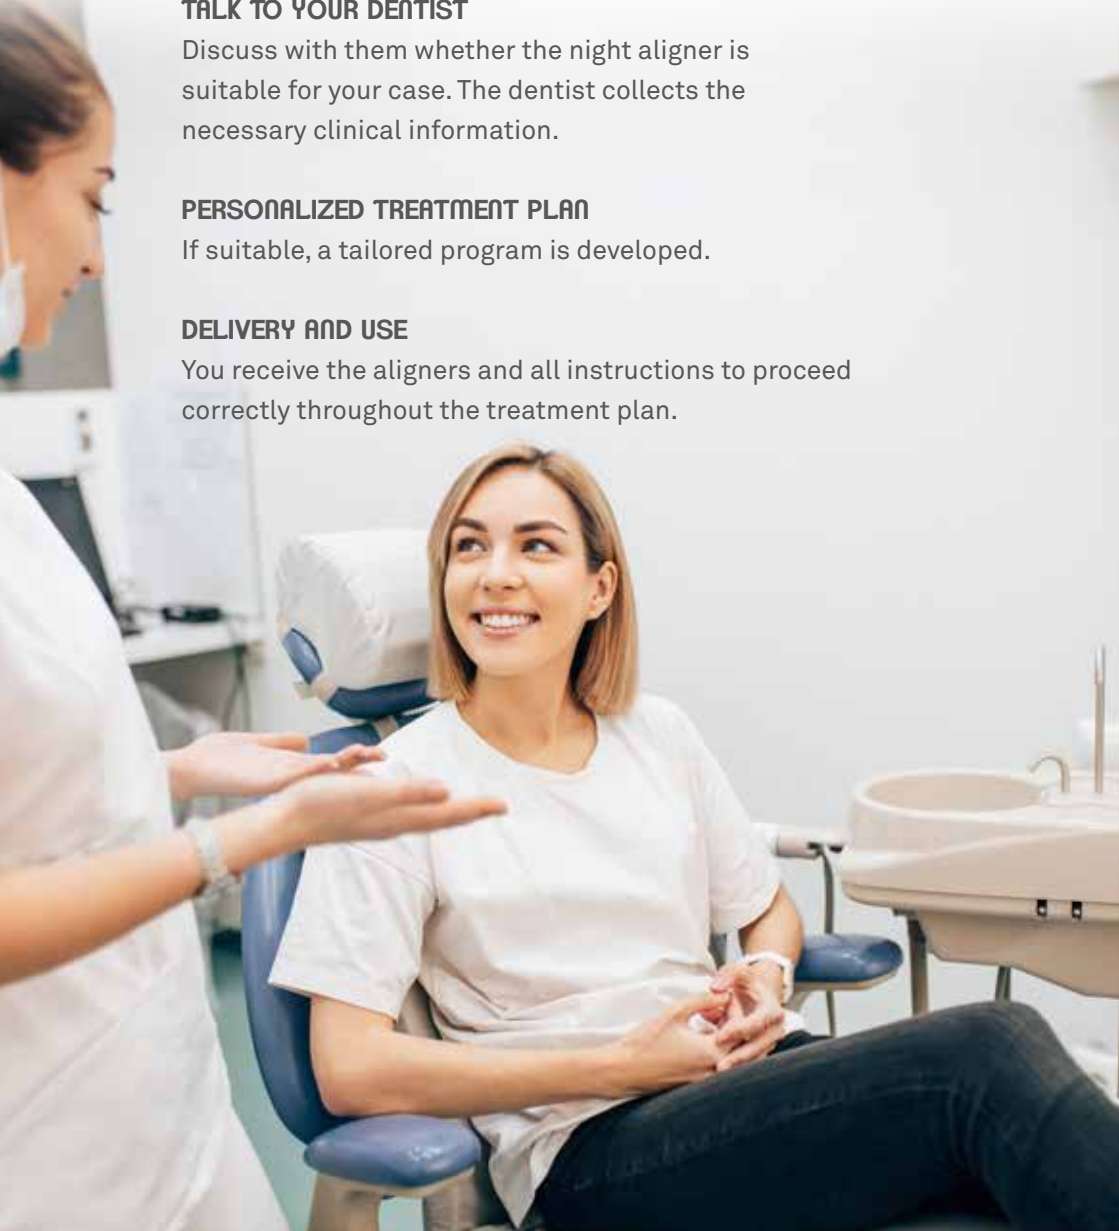

Discuss with them whether the night aligner is suitable for your case. The dentist collects the necessary clinical information.

PERSONALIZED TREATMENT PLAN

If suitable, a tailored program is developed.

DELIVERY AND USE

You receive the aligners and all instructions to proceed correctly throughout the treatment plan.

FAQ

HOW LONG DOES THE TREATMENT LAST?

The duration varies according to individual needs and the complexity of the case. Generally, it ranges from 8 to 16 months*.

HOW OFTEN DO I NEED TO HAVE CHECK-UP VISITS?

Check-up visits are generally scheduled every 4-6 weeks*, to monitor progress and adjust the treatment if necessary.

DO I HAVE TO WEAR THE ALIGNER EVERY NIGHT?

To achieve optimal results, it is important to wear the aligner every night, for at least 10 hours. Consistency is essential for proper tooth movement.

ARE THERE ANY LIMITATIONS DURING THE DAY?

Since the aligner is only used at night, it does not interfere with your daily activities or meals.

IS THE TREATMENT PAINFUL?

It is not real pain, but a slight pressure, especially in the first days or when moving to a new phase of the treatment. It is a normal and temporary sensation.
